

## Cathedral Bluffs Yacht Club's Reciprocal Policy for 2022 (as of December, 2021)

We look forward to welcoming you to Cathedral Bluffs Yacht Club during the 2022 boating season and sharing our piece of paradise with you.

CBYC is taking every possible step to help prevent the spread of COVID-19. This includes following all municipal and provincial guidelines and regulations. As such, we've made (and will continue) some changes to the procedures and requirements for visiting CBYC. As this is an ever changing situation, the most up to date information can be found on our website here under visitors' information. We recommend members of reciprocal clubs check the information there prior to visiting.

Our Covid Committee is maintaining an up-to-date status document outlining what is available and what current restrictions are in place. This document is available to view on a clickable link of our [home page](#). It is also posted on site at both entrances to the clubhouse.

All visitors will be required to check-in and screen using our online [Visitors Check-in & Covid Screening form](#). Please be prepared and don't be offended, when our team asks you to show proof of vaccination.

Docking assistance is available by our dedicated crew everyday 8:00am to 9:00 pm using channel 68 during the boating season. There are always members available to help. We ask visitors to please fly their club burgee and show their current club membership card, and to fill out the online [Visitors Check-in & Covid Screening form](#).

Dock space is free for the first three days to members of reciprocating clubs. In emergencies stays can be extended. We hope that you and your family and crew will enjoy your summer boating activities and will consider making our club a stopping point in your travels.

For general racing/cruising inquiries and exchange of reciprocal information: [fleetcaptain@cbyc.ca](mailto:fleetcaptain@cbyc.ca)

For club organized cruises (Please contact early): [cruising@cbyc.ca](mailto:cruising@cbyc.ca)

For assistance with docking please contact: [dockattendants@cbyc.ca](mailto:dockattendants@cbyc.ca)
